

**Compliant**   
**ETA | Cracked Concrete | Seismic | Fire**

# Epcon C6<sup>TM</sup> PLUS

**Heavy Duty Epoxy Anchoring**

**MULTI  
DIRECTIONAL  
APPLICATION**

**Epcon C6<sup>TM</sup> PLUS, a pure epoxy formulation forming strong bonds to concrete.**

Complying to ETAG001 Annex E; for use in cracked concrete and seismic applications As ref NZS3101:2006. Epcon<sup>TM</sup> C6<sup>TM</sup> PLUS is designed for fast all weather dispensing, user friendly working times to maximise productivity. Epcon<sup>TM</sup> C6<sup>TM</sup> PLUS is for structural reinforcing bar connections in slabs & structural anchoring applications.

**Advantages**

- Fast, Low Fatigue Dispensing.
- High Performance Pure Epoxy.
- Versatile Epoxy for:
  - Dry, Damp, Wet and Underwater
  - Carbide or Core Drilled\*
  - Oversized Diameters\* (up to 2.25 x Bar Diameter)

\*Performance of cored & oversized holes was not included in the ETAG test program and therefore is based on testing conducted at Ramset Concrete Structures Laboratory.
